+ Gender Neutral Day Cream

+ EWG Green

+ Innovative and Thready

Description

This O/W emulsion is a gender neutral light day cream, ideal to start the day for both women and men. 99.5% natural, the texture is very innovative with a particularly thready texture without any tackiness thanks to the low residual film created by Emulium® Mellifera MB. It contains two active ingredients fighting skin dullness: Gatuline® Radiance, which boosts the skin microcirculation, and EnergiNius™, which restores skin vitality.

Specifications

+ Aspect:
Orange cream

+ pH = 6.5 ± 0.5

+ Viscosity Brookfield RV (spindle B, speed 5):
approx. 20 000 mPa.s after 24h

Ingredients

- **Emulium® Mellifera MB** at 2% creates a light pleasant cream with a particularly low residual film.
- Xanthan Gum and Aristoflex® AVC are gelling agents which help improving stability. Aristoflex® AVC also helps to create this very thready texture.
- Propanediol, Butylene Glycol, Glycerin and Cetiol® Sensoft are emollients improving spreadability and moisturization of the skin. The high amount of Propanediol also helps to create this innovative texture.
- Hydrolite® 6 and Sensiva® SC50 are used as preservatives.
- **Gatuline® Radiance** is a Wu-Zhu-Yu extract fighting skin dullness and enhancing natural skin radiance and luminosity.
- **EnergiNius™** is an active obtained with the highly innovative NaDES technology, which protects the skin from all technological devices and restores skin vitality.
