ADVANCING HUMANITY

DISCOVER

Cerafy™ range

Cerafy™ Pure NPo

INCI: Ceramide NP

- **Ceramide from biotechnology** (non-GMO).
- **100% biomimetic ceramide NP (3)**, natural component of the *Stratum corneum*.
- **Oil soluble.**
- **Hero ingredient** answering the need for dermocosmetics and **strong efficacy**.
- Replenishes and **restores the skin barrier**.
- **Improves the skin hydration, texture, and appearance.**
- **Outstanding performance in moisturizing the skin over short, medium and long term** (long-lasting skin hydration even 6 days after the end of the treatment).
- Use level: **from 0.1%.**

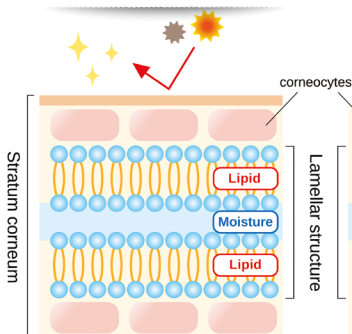

Cerafy™ Mix Repair

Lipid concentrate combining ceramides (NPo, NPs (3), AP (6)) and a ceramide precursor (Phytosphingosine)

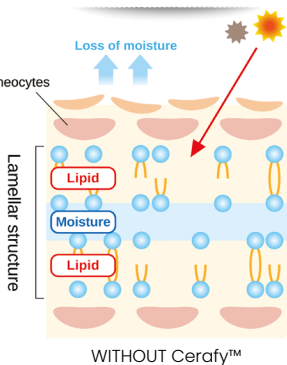

- **Ceramides from biotechnology** (non-GMO).
- **100% biomimetic ceramides**, natural component of the *Stratum corneum*.
- **Water soluble.**
- Liquid, **easy-to-use, cold processable.**
- **Supplies key biomimetic lipids** to the *Stratum corneum*.
- **Enhances skin moisturization** and restores the skin's protective barrier.
- Use level: **from 2.5%.**

CERAMIDES: KEY SKIN STRUCTURING LIPIDS

NORMAL lamellar structure:
GOOD LEVEL of ceramides

DISRUPTED lamellar structure:
LACK of ceramides

Dermalcare® range

INDULGE YOUR SENSES:
A SOLUTION
FOR EVERY TOUCH

Dermalcare® LIA MB

INCI: Isoamyl Laurate

The Upcycled Green Emollient with light touch unlocking new sensations!

- **100% plant-based emollient**, designed to take **Circular Economy principles** into account.
- **Green Chemistry principles**, resulting of a **low energy process** (enzymatic reaction of **upcycling** food wastes).
- **Alternative to non-volatile silicones**, addressing consumer concerns about **sustainability**.
- Offers **light and dry skin feel**, with excellent **spreading** and **solubilizing** properties.

Dermalcare® VG SQUALANE

INCI: Squalane

Secure Your Beauty: three Plant Sources, one Powerful Elixir!

- **100% plant-based origin: remarkable vegetable-derived squalane**, sourced from **three distinct plant origins** (canola seed, sunflower seed, and olive fruit).
- **Secure your beauty!** This diverse sourcing not only **replicates the benefits of 100% olive squalane**, but also ensures a **secure and stable supply**.
- **Iconic and powerful active emollient** with a **soft and rounded** skin feel:
 - **Deep moisturization.**
 - **Oily protective shield.**
- Facilitates the creation of light, non-greasy textures, **suitable for skin, body, or hair care products**.

Dermalcare® A99 LW

INCI: Isononyl Isononanoate

The Silky Touch: embrace the lightweight of effortless elegance!

- **Remarkable versatile and widely used emollient** that enhances the **sensory and spreading qualities** of cosmetic products while providing **effective skin conditioning benefits**.
- Offers a **velvety touch** while keeping a **light non-greasy end finish, smoothing** skin surface.
- Enhances **formulation spreading**, and makes it a popular choice for a large variety of products, including lotions, creams, sunscreens, and make-up.
- **Highly compatible** with oils and silicones.

SPOTLIGHT ON

Oleogy™ range

Oleogy™ LDXP, HDXP & HDXP KL

INCI: Dextrin Palmitate

- Ideal **oil thickeners** for **natural formulations**.
- From **low to high viscosity** depending on the grade chosen:

Oleogy™ LDXP

➤ LOW viscosity,
soft gels

Oleogy™ HDXP

➤ HIGH viscosity
gels

Oleogy™ HDXP KL

➤ VERY HIGH viscosity,
hard gels

- Enhance emulsions **stability**.
- Help reducing soaping effect in highly natural formulas.
- **Soft afterfeel**.

Oleogy™ LEOT

INCI: Octyldodecanol,
Dibutyl Ethylhexanoyl Glutamide,
Dibutyl Lauroyl Glutamide

- **Amino-acid derived** oil gelling agent.
- Ideal **pre-formulation solution** for **transparent** and **highly natural sticks**.
- Excellent spreading with **no sticky effect**.
- Hard stick with good deposit and **soft afterfeel**.

Acrylates replacement

Rheozan® SH & Naternal™ Guar Gum P SGI (2:1)
 The winning natural rheology modifiers association
 FOR LIGHT SYNTHETIC POLYMER REPLACEMENT

Rheozan® SH

INCI: Succinoglycan

- **Natural rheology modifier** from **biotechnology**.
- **Thickening & oil stabilizing** properties.
- Shear-thinning profile: **good pick-up**.
- High tolerance to electrolytes.
- Wide pH range (1-12).
- Easy-to-use.
- **Smooth & velvety skin feel**.

Naternal™ Guar Gum P SGI

INCI: Cyamopsis Tetragonoloba (Guar) Gum

- Ideal **thickener** for **natural & sustainable formulations**.
- Non-ionic structure.
- From **low to high viscosity**.
- Excellent spreading with **no stringy effect**.
- **Soft skin feel**.

Rheozan® SH & Naternal™ Guar Gum P SGI (2:1):

The **only natural synergy** providing the same properties as synthetic polymers:

Rheological
STRUCTURING

performance

SENSORIALITY

HIGHLIGHT ON

Natural Suspending Polymer

Rheozan® BLC W

INCI: Water, Cellulose, Cellulose Gum, Glycerin, Sodium Benzoate

Nature-derived suspending agent for your rinse-off and leave-on formulations:

- **Bio-engineered polymer**, creating a **3D network of insoluble cellulose fibers** which **stabilizes** particules or droplets (no impact on viscosity or formulas aesthetics).
- **Ready-to-use liquid, COSMOS-validated polymer solution.**
- **In association with Rheozan™ SH:** develops **stable low viscosity formulas** with powders, oils or particles. Perfect for sun care, wipes or low viscosity formulas.

Textify™ LALY

INCI: Lauroyl Lysine

- Enables a **smooth & silky texture.**
- Low refractive index imparting a natural & **light matte effect.**
- Low frictional coefficient: promoting a **gliding effect.**
- Hydrophobicity: **resists to water and sweat**, and provides a **water-repellency effect.**
- **Hexagonal particle shape**, provides **good skin adherence** and **long-lasting** properties.

TEXTURIZING AGENT

FORMULAS

Translucent Repairing Body Cream Gel - SC0033

A	Aqua/Water	Qs
	EDTA	0.05%
B	Dermalcare® LIA MB	1%
	Dermalcare® A99 LW	2%
	Dermalcare® VG Squalane	3%
C	Rheozan® SH	0.6%
	Naternal™ Guar Gum P SGI	0.3%
	Butylene Glycol	2%
D	Cerafy™ Mix Repair	2.5%
E	Phenoxyethanol, Ethylhexylglycerin	1%
	Citric Acid	Qs pH

Nourishing Nectar, Rich Oily Gel SC0046

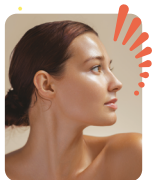

A	Dermalcare® LIA MB	21%
	Dermalcare® A99 LW	65.5%
	Dermalcare® VG Squalane	5%
	Oleogy™ HDXP KL	8%
	Cerafy™ Pure NPo	0.5%

Skin Rescue Primer SC0036

A	Aqua/Water	Qs
	GLDA	0.05%
	D-panthenol	0.1%
	Rheozan® SH	0.15%
	Rheozan® BLC W	5%
	Mirataine® OMG MB	4%
	Niacinamide	1%
	Dermalcare® LIA MB	5%

ADVANCING BEAUTY CARE APPLICATIONS

Syensqo's Beauty Care solutions offer formulators a diverse range of elevated ingredients for hair and skin care that meet consumers needs while caring for the planet.

OUR Skin Care offer

ACTIVE INGREDIENTS

- **Cerafy™ Pure NPo**
(Ceramide NP)
- **Cerafy™ Mix Repair**
(Ceramides NP, AP, Phytosphingosine)

GREEN EMULSIFIERS

- **Mirataine® OMG MB**
(Cetyl Betaine, Glycerin)
- **Mirasoft® SL A60**
(Sophorolipids)

EMOLLIENTS

- **Dermalcare® LIA MB**
(Isoamyl Laurate)
- **Dermalcare® A99 LW**
(Isononyl Isononanoate)
- **Dermalcare® VG Squalane**
(Squalane)

TEXTURIZING AGENT

- **Textify™ LALY**
(Lauroyl Lysine)

NATURAL RHEOLOGY MODIFIERS

- **Rheozan® SH**
- **Rheozan® BLC W**
- **Naternal™
Guar Gum P SGI**
- **Oleogy™
LDXP, HDXP, HDXP KL**
- **Oleogy™ LEOT**
